PROBLEM STATEMENT: Find big Wumber

INPUT: number One, Dumber Two, number Three

OUTPUT : big Number

Step 7: Start

Step 2: Dedare Real number One, number Two.

step 3 ! Input number one

Step 4: Input number 7000

Step 5 : Input number Three

Step 6: If number one > Number two and number one > number three

step 6.1: Octput -> number One

Step 7: If number 7000 > Number Three and number 7000 > Number Three

Step 7.1: Output -> number 7000

step 6: If number three > humber 7000 and number three > number one

Step 6.1: Output -> number three

step 9 : Stop
